

Annex II Excess Baggage Charges for Air China-Operated Flights (For overweight, oversized and excess baggage)

(Version 20220610)

1. Mainland China Routes (Weight concept)

For Domestic Carriage, **1.5%** of the published adult Economy Class fare for a direct one-way trip on that day will be charged for each additional kilogram of excess baggage. Excess baggage charges are collected in RMB and rounded up or down to the nearest whole number.

2. International Routes (Piece concept)

2.1 We will use the same currency used for baggage check-in to calculate the cost of the whole journey.

2.2 Currency

2.2.1 Chinese currency can only be used for baggage check-in of departures from mainland China.

2.2.2 Euro can only be used for baggage check-in of departures from Euro-zone.

2.2.3 Canadian dollars can only be used for baggage check-in of departures from Canada.

2.2.4 US dollars can be used for baggage check-in of departures from other areas in addition to the requests listed on 2.4.1, 2.4.2 and 2.4.3.

Sales offices located outside of China should collect excess baggage fees in the local currency. If the local currency is not US dollars, the amount due should be calculated using the USD exchange rate of the day.

2.3 The number limit of checked baggage: no limitation on baggage quantities (includes general and special baggage)

Passenger needs to apply to the ticket office (airports) for transporting the seventh and more additional pieces which are exceeding the limits of the free checked baggage allowance and the Phoenix Miles allowance. Please note that extra baggage is accepted only if space is available on the aircraft. Meanwhile Air China does not promise to transport all checked baggage on the same flight as the traveler. All ticket office (airports) are requested to keep passengers informed accordingly.
